AUTUMN LEAVES COLORED BY AGE .- To the Editor of the Tribune: Sir, -A correspondent, giving an account of the first Friday night prayer-meeting after Mr. Beecher's re-turn from vaculion, says: "On the stand there was a large baske: of maple leaves co-lored crimson by the frosts." I beg leave to state that is is age, not frost, that changes the color of leaves. Those I aves would have been crimson if there had been no frost. Leaves are most brilliant, and assume the most variegated bues in seasons when the frost comes late and before they are touched by it. When there is an early frost they become brown and soon fall to the ground. In midsummer strawberry leaves become ma-A. T. F. ture and turn scarlet. Medina, Ohio, October 25, 1875.

If accomplishment can make an accomplished young lady, then such is Miss -(alas! she is anonymous), who lives at Romeo, Mich. Suppose we call her Juliet? Being bantered (by some leather headed ignoramus) upon the inefficiency of the female half of mankind, Miss Juliet undertook for a wager (though we do not approve of betting) to saw two cords of wood between 7 o'clock A. M. and 6 o'clock P. M. She was through by 5 o'clock P. M., and took five dollars. Then, to show that she could join the utile to the dulce, she tock a good practice on the plane. Finally, her ambition being still rampant, she undertook to make a pair of pantaloons the next day, and did, receiving double pay. Name!

This valuable property is in the business centre of this coal field; the soil is excellent and produces well, and there is now growing on it a fine variety of grapes, strawbertjes, and fruit-trees. The soil is in a fine state of cultivation, being adapted to and having been used for years as a market-garden. The improvements consist of three dwelling-houses with four, five, and six rooms respectively, and one of the largest and most conveniently arranged store- and dwelling-houses in this section; the main store-room is 18x36 with a shed attached 14x16 with six rooms to the dwelling part, making four buildings in all, and has always been considered one of the best country stands for business in the county. There are barms stables, and necessary out-buildings on the premises, a well of excellent water in the yard, and a good ice-house. This property being in the midst of this coal field, accessible by rail, oad, convenient to churches, achools, and mills, and the mines should engage the attention of capitalists. Its proximity to the mines insures good and reliable tenants, and with a few repairs could be made to yield a rent of \$250 a year. A ready sale is found for vegetables, and a good living could be made from the garden alone and the sale of ice. This property adjoins the lands of the Clover Hill Railroad Company. James H. Cox, and the Anderson estate. The mineral right does not go with the property. For further information concerning this property adjoins the lands of the Clover Hill Railroad Company. James H.
